TOP 15 LIST:

# Most popular KNX devices

Get an insight in the most popular KNX devices used by system integrators worldwide.

We have scanned **10.000+** anonymized ETS files from our 1Home Bridge users all around the world.

### Project statistics:

Out of the 10.000+ scanned ETS files, each project included on average:

**12**

Rooms

**36**

Physical devices

**92**

Logical devices

### The results:

Based on our data, we have compiled the ultimate insight into the favorite KNX manufacturers and devices used in projects worldwide.
